

Day 1 : Project Introduction Document

1. Company Overview

ABC Technologies Pvt. Ltd. is a fictional technology organization based in Bengaluru, Karnataka, India. The company delivers software development and technology solutions to clients across multiple industries. Its core service offerings include application development, software testing, backend development, and end-to-end digital solutions.

ABC Technologies is committed to building a skilled, innovative, and high-performing technology workforce. As part of its business expansion strategy, the organization aims to strengthen its development and quality assurance teams by hiring fresh graduates and early-career professionals.

2. Hiring Objective

The primary objective of this recruitment initiative is to hire qualified entry-level and junior technology professionals for ABC Technologies Pvt. Ltd.

The organization seeks candidates with strong technical fundamentals, problem-solving skills, and a willingness to learn. The recruitment process will focus on identifying suitable talent for the following domains:

- Java Development
- Software Quality Assurance (QA)
- Python Development

3. Positions Open

The following positions are currently open for hiring:

Position	Number of Openings	Experience Required
Java Developer	2	0–2 years
QA Engineer	2	0–2 years
Python Developer	1	0–2 years
Total	5	0–2 years

4. Vacancy Summary

A total of 5 positions are available for immediate hiring.

- Java Developer: 2 positions
- QA Engineer: 2 positions
- Python Developer: 1 position

The requirement is focused on candidates with 0–2 years of professional experience, including fresh graduates, interns, and early-career professionals with relevant exposure.

5. Experience Requirements

All positions require 0–2 years of experience.

The organization will consider candidates who meet any of the following criteria:

- Fresh graduates with relevant technical qualifications
- Candidates with internship experience in related domains
- Professionals with up to two years of industry experience
- Candidates with strong technical fundamentals and learning agility

6. Work Location

Bengaluru, Karnataka, India

Selected candidates will be based at the Bengaluru office of ABC Technologies Pvt. Ltd. The work model may be on-site or hybrid, depending on project and business requirements.

7. Employment Type

All selected candidates will be employed on a full-time, permanent basis with ABC Technologies Pvt. Ltd.

8. Recruitment Timeline

The expected duration of the recruitment process is 6–8 weeks.

Recruitment Stage	Timeline
Finalization of requirements	Week 1
Candidate sourcing	Weeks 2–3
Resume screening	Weeks 2–4
HR / Initial interviews	Weeks 3–5
Technical interviews	Weeks 4–6
Final selection & HR discussion	Weeks 6–7
Offer rollout & onboarding	Weeks 7–8

9. Recruitment Summary

ABC Technologies Pvt. Ltd. aims to hire 5 technology professionals for its Bengaluru office, including 2 Java Developers, 2 QA Engineers, and 1 Python Developer. All roles require 0–2 years of experience and are offered as full-time, permanent positions.

The recruitment process will include sourcing, screening, interviewing, selection, and onboarding, with the goal of completing all hiring activities within a 6–8 week timeline.

10. Project Objective

The objective of this recruitment project is to successfully fill all open positions with qualified candidates who align with the technical and organizational requirements of ABC Technologies Pvt. Ltd.

The project will follow a structured recruitment approach covering requirement definition, candidate sourcing, evaluation, selection, and onboarding to ensure timely and effective hiring outcomes.
